

# Tianle (Steven) Chen

501 N Henry St | Madison, WI, 53703 | tchen433@wisc.edu | +1(608)949-2850 | <https://www.sttlchen.com>

## EDUCATION

### University of Wisconsin-Madison

Madison, WI

Bachelor of Science: **Mathematics, Statistics**

September 2021 – December 2024

- GPA: **3.877/4.0**, Honors: **Dean's List** for 4 Semesters, **Successful Participant Award** for COMAP 2024(Advisor: Saverio Spagnolie, Amy Cochran)

## PUBLICATION

- Chunmei Li, **Tianle Chen**, Huimin Chen, etc. Gender and racial/ethnic disparities of early-onset colorectal cancer by anatomical sites, histological types, and disease stages in the United States during 2001-2019 -- Pending publication

## RESEARCH & ACADEMIC PROJECTS

### Madison Experimental Mathematics Lab: Numerical Study of Kakeya Maximal Inequalities

Madison, WI

Research Assistant supervised by Prof. Terence Harris

September 2024 – December 2024

- Conducted an in-depth review of the Kakeya maximal function conjecture, focusing on 3D scenarios
- Designed and implemented numerical simulations for 3D tubes using spatial hashing techniques
- Adapted methodologies to refine implemented Greedy algorithms based on resolved conjecture cases
- Utilized MATLAB and Python (NumPy, SciPy, Matplotlib) for complex geometric computations
- Documented and tested all methods to ensure simulation accuracy against known theoretical outcomes

### Gender and Racial/Ethnic Disparities of Early-onset Colorectal Cancer by Anatomical Sites, Histological Types, and Disease Stages in the United States during 2001-2019

Remote

Research Assistant supervised by Shihua Wang, Ohio State University

June 2022 – August 2023

- Extracted and prepared data from SEER\*Stat for analysis, with a focus on early-onset colorectal cancer
- Conducted preliminary statistical calculations, including mean and variance, to understand data distributions
- Developed graphics to detect critical patterns and trends
- Utilized SAS software for statistical analysis, evaluating data using p-values
- Helped identify crucial areas for further research and discussion in thesis development

### Regression Model Design for Human Bodyfat Prediction

Madison, WI

Group Project supervised by Prof. Hyunseung Kang

September 2023 – November 2023

- Imported dataset into RStudio and detected outliers using Cook's distance, leverage point, and IQR analysis
- Assessed dataset normality, homoskedasticity, and linearity using qqplot and residual plot
- Explored regression models, including Simple Linear Regression (SLR) and Multiple Linear Regressions (MLRs)
- Conducted literature review to identify and incorporate predictors that balance robust prediction capabilities with simplicity for practical daily use
- Performed F-test to evaluate and compare regression models and select the most effective ones
- Achieved a high-performing final model with an R-square exceeding 0.7 and (RMSE) of 4.08

### Algebra/Probability (Directed Reading Program)

Madison, WI

Participant

February 2024 – May 2024

- Explored advanced mathematical concepts under the guidance of a graduate student mentor, focusing on the Free Central Limit Theorem (FCLT) from "Lectures on the Combinatorics of Free Probability"
- Acquired knowledge beyond the standard curriculum, delving into non-commutative algebra and its probability space
- Presented findings on FCLT in the final program presentations

### Stars and Planets Data Analyzation

Madison, WI

Group Project

November 2023

- Used Python and Jupyter Notebook to process JSON and CSV data into structured data frames and developed functions to handle missing data
- Created graphs such as scatter plots and pie charts for data visualization and analysis of astronomical data
- Applied astrophysical formulas to identify potential habitable planets and predict star and planet characteristics

### Wordle Game

Madison, WI

Individual Project

May 2022

- Utilized Java programming language in IntelliJ to develop a Beginner-level wordle game
- Implemented techniques including ArrayList management, pseudorandom number generation, and robust error-handling mechanisms to guarantee seamless user interaction and error-free gameplay experience

**PROFESSIONAL EXPERIENCE**

---

<b>Outlier AI.</b>	Remote
<i>Intern</i>	April 2024-present
<ul style="list-style-type: none"><li>• Analyzed and assessed the accuracy and quality of responses generated by AI models for given mathematical problems</li><li>• Implemented corrections and enhancements to refine and adjust AI-generated responses</li><li>• Utilized advanced mathematical knowledge and LaTeX formatting to improve the clarity and correctness of model outputs</li><li>• Assisted in updating and refining algorithms to better address complex mathematical problems</li></ul>	

<b>China Mobile Sichuan Corp.</b>	Chengdu, China
<i>Marketing Analyst</i>	May 2023 – June 2023
<ul style="list-style-type: none"><li>• Analyzed carrier service marketing data for personal cellular phone plans using advanced Excel techniques</li><li>• Conducted data analysis to identify market trends, customer preferences, and pricing strategies, optimizing cellular phone plans and maximizing customer satisfaction</li><li>• Collaborated with cross-functional teams to implement data-driven price adjustments and promotional campaigns</li></ul>	

**EXTRACURRICULAR ACTIVITIES**

---

<b>Burkard Lab, UW-Madison Department of Medicine</b>	Madison, WI
<i>Lab Assistant</i>	January 2023 – May 2023
<ul style="list-style-type: none"><li>• Maintained the functioning of Burkard Lab by providing support to lab operations</li><li>• Gained hands-on experience in various general lab techniques, including autoclaving, restocking materials for breast cancer research, and preparing chemical solutions and buffers</li></ul>	

<b>UnityPoint-Meriter</b>	Madison, WI
<i>Clinical Shadowing Assistant</i>	October 2022 – December 2022
<ul style="list-style-type: none"><li>• Shadowed a UW-Health Professor specializing in colon &amp; rectum surgery</li><li>• Participated in clinical settings, closely observing and assisting the surgeon during patient consultations, gaining practical communication skills with patients, physicians, and rotating medical students</li></ul>	

<b>McBurney Disability Resource Center, UW-Madison</b>	Madison, WI
<i>Notetaker</i>	June 2022 – July 2022
<ul style="list-style-type: none"><li>• Provided notetaking support for the History 130 course, assisting students with learning disabilities</li><li>• Utilized advanced techniques within Windows Word to format and enhance notes, adhering to specific guidelines to optimize readability and utility for students with diverse learning needs</li></ul>	

**ADDITIONAL INFORMATION**

---

**Technical:** MATLAB, Python, R/RStudio, SAS, SQL, LaTeX, Microsoft Office, Java, VB/VBScript, HTML

**Certificate:** Basic Life Support Provider (eCard Code: 235411670163, American Heart Association, Dec 2022-Dec 2024)

**Languages:** English (Fluent), Chinese (Native), German (Beginner)
